Service over and above

Steeline Slick-Fit Downpipes 100x75

A full range of accessories are available from your Steeline member. The unique method of rollforming Slick-fit downpipes consistently tapers any length, with a big and small end to enable the ease of joining lengths.

Making Offsets

Simply measure the length of offset required. Cut the intermediate piece to length then rivet and silicone to each offset.

“SAVE TIME & MONEY – USE ROLLFORM DOWNPIPE WITH OFFSETS”
