

PRODUCT GUIDE

Our patios

For an economical, attractive and durable outdoor entertaining area, the team at Steeline Roofin Spot can work with you to develop the perfect patio for your home.

Options

We design your patio to order, and offer a range of sizes, colours and materials to suit your needs. We can supply your patio in kit form (with a user-friendly construction manual), or we can refer you to a qualified tradesperson to complete the installation.

Quality materials

Our patios are manufactured to the highest standards in our very own factory (however Solaris® insulated roofing panels are manufactured by Retracom). We work only with Australian-made BlueScope Steel, including Colorbond®, Zinalume® & Galvaspan® products.

**CYCLONE
TESTED**

Clever engineering

Steeline Roofin Spot patios look great and can stand up to extreme weather conditions. Our patios exceed Australian standards and all our products have been independently tested for “low-high-low” cyclonic regions.

Industry experience

We are BSA licensed and use industry-approved contractors. Steeline Roofin Spot is a family-owned business with over 30 years experience in the industry.

Colorbond® colours

Steeline Roofin Spot patios are available in a limited range of Colorbond® colours. Check with our team for more information about the current colour range for our patios.

PATIOS

Easy installation

Our patios are supplied in kit form, and installation is explained through a user-friendly construction manual.

Talk to our team if you require assistance with installation, as we can refer you to a qualified and experienced tradesperson to complete the project.

Insulated Patio Panels

Steeline Roofin Spot supply an array of insulated panel for our range of patios which gives your patio improved strength, thermal performance and vermin proofing.

Insulated roofing requires very little maintenance, with the insulation not only reducing heat transfer but also condensation, mould and corrosion. Insulated roofing is available in a range of Colorbond® colours.

Finding the right patio

When finding the right patio for your home, the available sizes and colours will be determined by your preferred roofing materials. Talk to our friendly team to learn more about your options.
