

Steeline

ROOFIN SPOT

PRODUCT GUIDE

Our sheds

Whether you need a double bay garage for the backyard or something bigger for the farm, Steeline Roofin Spot can supply your new shed in kit form, or a complete supply and fit service.

Custom design

We custom-build your shed to suit your needs, and offer a range of optional extras including awnings, garaports, vermin proofing, electric openers, insulation, roof ventilators and mezzanine floors.

Quality materials

Our sheds and garages are manufactured to the highest standards in our very own factory. We work only with Australian-made Bluescope Steel, including Colorbond®, Zinalume® & Galvaspan® products.

Clever engineering

Our portal frame sheds are specifically designed and engineered to suit your needs. Our sheds exceed Australian standards and all our products have been independently tested for “low-high-low” cyclonic regions.

Industry experience

We are BSA licensed and use industry-approved contractors. Steeline Roofin Spot is a family-owned business with over 30 years experience in the industry.

Colorbond® colours

Steeline Roofin Spot sheds are available in a range of Colorbond® colours. Check the Colorbond® website for more information on available colours in your region.

SHEDS & GARAGES

Cladding

For added strength, we use only .42 bmt wall and roofing iron. We fix all roof sheeting through the rib, not through the pan (flat) of the sheeting.

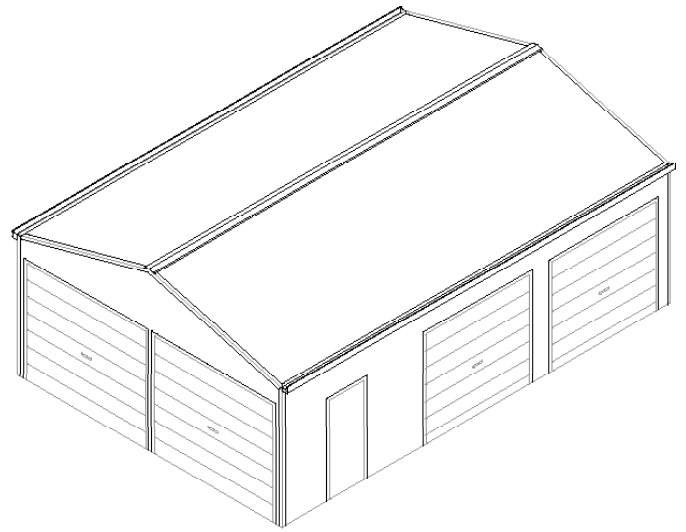

Steeline Roofin Spot uses Australian-made Colorbond® Bluescope Steel on all structures.

Roller doors

Our roller doors are supplied by B&D, so you can be sure they are strong and easy to use. Your shed can also include personal doors and windows.

Flashing

To protect you from sharp edges, our sheds come complete with pre-folded and colour co-ordinated flashings on corners, door openings, windows and door heads.

Gutters & downpipes

90mm PVC stormwater pipe and Colorbond® gutters are included in your kit at no extra cost.

Durable

With years of experience manufacturing quality steel carports, Steeline Roofin Spot guarantees to deliver a product that is built tough to Australian standards.
