

**Steel line**
ROOFIN SPOT

COMPANY PROFILE

Who we are

Steeline Roofin Spot is a family owned metal roofing company, with locations in Gympie, Hervey Bay, Bundaberg, Gladstone and Lismore.

Steeline Roofin Spot has been proudly servicing the regions commercial and domestic needs for over 30 years, offering quality product ranges at extremely competitive prices.

What we do

We are a local manufacturer of Colorbond® and Zinalume® metal roofing, and offer retail and commercial services for the following products:

- Gutter & fascia
- Garages and Sheds/
- Structural steel
- Sheet metal flashings
- Patios
- Purlins
- Carports
- Fencing

We also carry a large range of complimentary products including Insulation, Fibreglass & Polycarbonate Sheeting, Fasteners and Skylights.

The Steeline Group

The main purpose of the Steeline group is to provide members with access to national deals with its suppliers.

With over 26 members nation-wide, Steeline is recognised as being within the top five major players in the marketplace today, and now has representation within every state and territory of Australia.

Not all members manufacture and distribute the same product. Each business is unique and all Steeline members are privately owned.

Major benefits for Steeline customers

- Decentralised local manufacturing
- Personalised service
- Owner-operated transport
- No long delivery delays
- Immediate local service
- Local knowledge of the industry

WELCOME

Our workshops

Steeline Roofin Spot is the largest manufacturer of its type within the region, servicing both commercial and domestic markets.

We have over 60 pieces of plant equipment within our company, the majority of which are operating from our 2075m² workshop in Bundaberg.

Through lean thinking, increased automation and new technology, Steeline Roofin Spot has gained a reputation for value, quality and reliability.

Transport

Steeline Roofin Spot has a fleet of over 20 vehicles, which can on any day carry up to 50 tonnes of material.

By investing in owner-operated transport, Steeline Roofin Spot is able to maintain a reliable and readily available fleet. This ensures our client base will not encounter additional delivery costs or delays.

Services and divisions

Steeline Roofin Spot has seen extensive growth and diversification of its products and services, which now include:

- Commercial Division (catering for large projects such as government schools and shopping centres)
- Extensive range of retail products (including sheds, carports, patios and fencing)
- Head Office Estimating Division servicing all branches
- Domestic supply and fit division servicing the home improvement market, the new domestic home sector, as well as the re-roof market
- Logistical area from North of Mackay, South to the Sunshine Coast and West to Biloela.

HOW WE OPERATE

Capabilities

Steeline Roofin Spot currently holds an Open Builders License through the BSA. When combined with our manufacturing processes and product range, we are able to deliver a complete supply and fit package to our customers.

We strive for every project to be successful in all aspects, including safety, environment, client satisfaction and project profitability.

Specialised staff

We have specialised staff dedicated to the commercial division, working with clients from the initial estimating right through to the completion of the project, ensuring that all project elements are finished to the clients specifications.

Our subcontractor teams consist of vastly experienced trades people. All aspects of their workmanship is expected to meet exceptionally high standards.

Owner operated transport

Our fleet of 20 vehicles includes three body trucks and three semis with purpose built trailers. This fleet is capable of delivering up to 50 tonnes of material, giving us the capacity to meet the requirements of our commercial clients.

Manufacturing

Steeline Roofin Spot has a sheet metal factory within each of its branches. By manufacturing our own products, we are able to supply and deliver custom-made steel products for projects of all sizes, while maintaining readiness for rapid changes to project timetables.

Proven experience

Steeline Roofin Spot have proven experience within the Government School Building projects, strata building, high rise commercial and industrial installations.

COMPLETED PROJECTS

Residential developments

With a reputation founded on its domestic division, Steeline Roofin Spot has over 30 years of experience in new homes, apartments and residential communities. Steeline Roofin Spot work with clients from the initial estimating right through to the completion of the project.

Regardless of size or location, we strive for every project to be successful in all aspects, including safety, environment, client satisfaction and project profitability.

Competitive advantage

- Decentralised local manufacturing
- Owner-operated transport
- No long delivery delays
- Logistical area from North of Mackay, South to the Sunshine Coast and West to Biloela.

Capabilities

Steeline Roofin Spot currently holds an Open Builders License through the BSA. When combined with our manufacturing processes, owner-operated transport and subcontractor teams, we can offer a reliable and cost-efficient supply and fit service.

Quality

By manufacturing our own products from quality BlueScope steel, we are able to supply and deliver custom-made steel products for projects of all sizes, while maintaining readiness for rapid changes to project timetables.

Re-roofing

Our dedicated estimation division and supply and fit services are also available for the re-roof market. We have a diverse range of products and profiles to suit all styles of homes, including modern and colonial.

The complete package

Steeline Roofin Spot offers a range of value-adding products and services for residential developments.

Made possible by our manufacturing capabilities and supply and fit services, the Steeline Roofin Spot home improvements division ensures our clients can source all materials and services from one supplier.

All Steeline Roofin Spot metal roofing products (including those used on our home improvement products) comply with the new Low-High-Low certification for cyclonic regions.

Garages & Sheds

Available in a range of colours and sizes, and can be customised to suit project specifications

Patios

As with all home improvement products, patios are available in kit form or full supply and fit packages.

Carports

Skillion or Gable pitched roof, available in the complete range of Colorbond® colours or Zinalume®.

Fencing

Available in two profiles and 10 different colours. Lattice screens are available for a heritage look.

Accessories

Fasteners, insulation, whirlybirds, skylights, polycarbonate and fibreglass products, and B&D Roller doors.

Roofing

Steeline Roofin Spot manufactures a range of domestic and commercial roofing products that are available in standard Colorbond®, Ultra Colorbond®, Zinalume®, Galvanised and Hi Gloss.

Our profiles can be used for all building requirements including domestic housing, curved sheeting, wall sheeting, sheds, carports, patios, strata, commercial and industrial buildings. All of our roofing has been tested for cyclonic conditions and have Low-High-Low certification.

Rainwater

We manufacture the standard range of guttering profiles, and also a larger 150mm High Front Quad Gutter for larger water carrying capacity. We have a diverse range of profiles which can be used on all styles of housing, including modern and colonial.

Structural

We manufacture a large range of structural products including ceiling battens, roof battens, top hats and "C" and "Z" purlins. All of our structural products are certified with Low-High-Low cyclonic testing and can be used in all structures from carports to large industrial buildings.

Sheet metal and custom orders

Steeline Roofin Spot has a sheet metal factory within each of its branches, allowing our clients to order custom-made flashings to meet specific requirements.

OUR BRANCHES

Environment

Steeline Roofin Spot is committed to incorporating the principles of sustainable business into its everyday decisions.

We participate in environmentally friendly activities to ensure that all processes, products and manufacturing activities adequately address current environmental concerns.

Business Practices

We apply sustainable practices towards the everyday administration and manufacturing processes, such as:

- Renovation of Head Office by an Endorsed Sustainable Building Designer
- Voluntary contributions towards the Ergon Clean Energy scheme
- Digital data storage and paperless job processing
- Scrap metal recycling program

Suppliers

Over 95% of our steel is supplied by BlueScope Steel, a company that is committed to continually improving its environmental footprint.

BlueScope Steel is a participant in the Federal Energy Efficiency Opportunities program, and is also heavily involved in the protection of flora and fauna around their steel sites.

Products

Steeline Roofin Spot supplies a range of products to help clients implement green practices in their building projects.

Insulation is effective in preventing heat loss, and can also impact on energy use and our environment. Steeline Roofin Spot is a supplier of Bradford glasswool and rockwool, which are amongst the world's most sustainable building products.

History

Our company has always been a family-owned business, originally founded by Bob and Diann Buchbach in 1982. We strive to uphold the same values and service that helped grow Steeline Roofin Spot to where it is today.

Mission

Steeline Roofin Spot is committed to delivering a superior standard of quality in service, product and workmanship. We honour our relationships with customers, people, suppliers and communities, and are committed to sustainable business practices

Vision

Our vision for Steeline Roofin Spot is for the company to acquire and maintain a majority market share over its competitors, and gain recognition as the most progressive roofing, home building and outdoor living supplies company within the industry.

People

We are dedicated to nurturing and developing our people and we recognise that they are our most valuable asset. Steeline Roofin Spot invests in training and up-skilling, which in turn encourages the long term retention of our people.

Community

Steeline Roofin Spot strives to maintain close relationships within the community. Supporting our customer and employees causes is a core philosophy of Steeline Roofin Spot.

Equal Opportunity

Steeline Roofin Spot is committed to non-discriminatory employment, management practices and policies. We support equal opportunity in the employment of our people, and believe that all employees should be treated with respect and fairness.

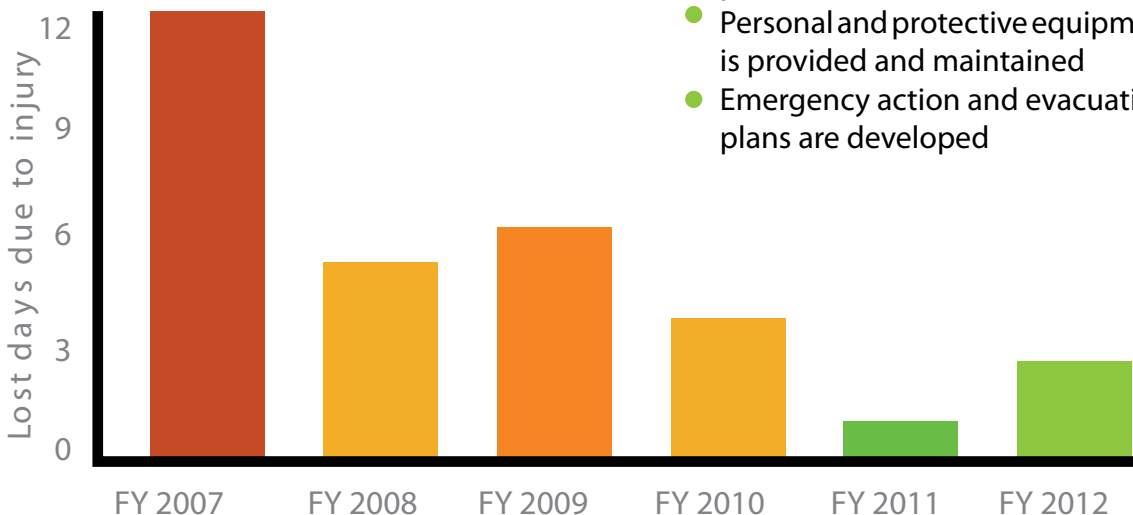

Responsibilities

The Management of Steeline Roofin Spot takes all practicable actions to safeguard the occupational health and safety of Steeline Roofin Spot employees, contractors and visitors.

We monitor and review safety performance throughout the company and we are committed to reducing the frequency rates.

Lost time injuries

Primary objectives

Our primary objective is to ensure that all employees of Steeline Roofin Spot are safe from workplace injury and risks to their health. We aim to ensure that:

- A safe workplace is provided and maintained
- Employees are instructed in safe work practices
- WHS hazards and risks are investigated and practical control measures are implemented
- Medical and first aid facilities are provided
- Personal and protective equipment is provided and maintained
- Emergency action and evacuation plans are developed

Smart

With a strong focus on professional development and progressive use of technology, Steeline Roofin Spot is committed to education and training. We currently have a large number of staff undergoing government-funded training in Administration, Management and Competitive Manufacturing.

Fair

Being a family-owned business, Steeline Roofin Spot is proud to support people in the community. We are an equal opportunity employer, and take pride in supporting local charities and causes.

Experienced

With over 30 years experience working on developments of all sizes, Steeline Roofin Spot has successfully completed many projects for local councils and Queensland state government departments.

Healthy

Steeline Roofin Spot strives to protect the health, safety and wellbeing of its employees. All staff are provided with a sun-safe and smoke-free work area, while flexible working hours encourage a healthy work-life balance.

Green

Steeline Roofin Spot embraces green business practices in all operations and decisions. We have developed power efficient manufacturing activities and recycling programs to reduce waste, and our major suppliers are committed to reducing their environmental footprint.

Strong

By focusing on innovation, unique industry knowledge and superior quality products, services and workmanship, Steeline Roofin Spot strives to maintain its competitive advantage and majority market share within the industry.
