STEELINE HUNTER CARPORT KITS

Why expose your car to harsh Australian weather conditions when you could purchase a Steeline Hunter Carport and have peace of mind knowing that your car is protected?

The Steeline Hunter Carport Kit is available in an array of colours, pitches (including gable and skillion roofs) and sizes (custom heights and depths) with the options of gutters, trims and barges.

Made with 100% BlueScope roofing and purlins, the Steeline Hunter Carport features an easy to assemble frame system, only requiring to be bolted to an existing slab or set in concrete.
